SPLIT FOLDING BELT PULLEYS

Folding belt pulleys are prone to various points of failure and eventually require complete replacement

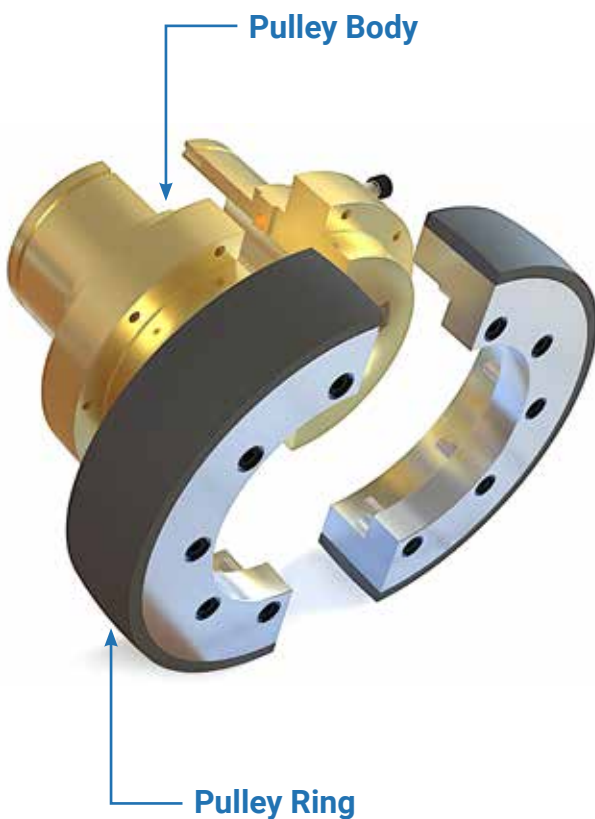

Worn Pulleys

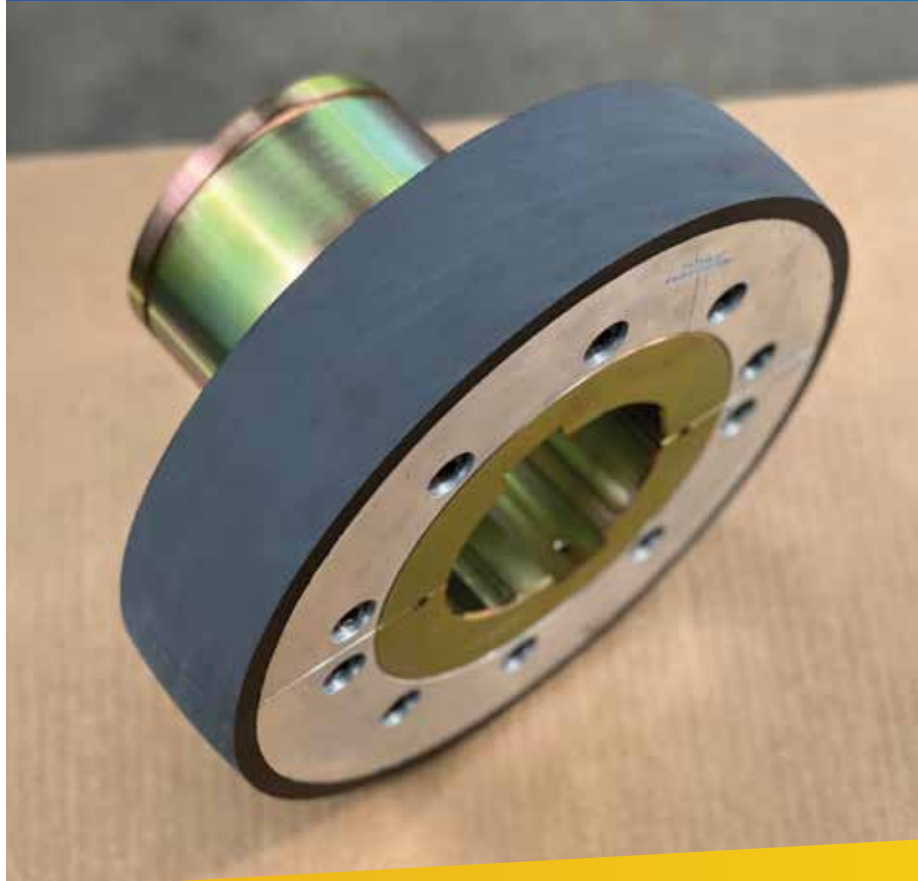

OEM non-split pulleys require a significant downtime event to replace, and interim failures can cause issues with belt tracking and folding rail alignment.

SAUER SPLIT PULLEYS

are a direct replacement and have the following features:

- Split design for ease of removal and installation
- Multiple working keyways
- Replaceable keyway inserts
- Demountable pulley ring can be replaced in minutes
- Worn pulley ring can be returned for recover

SPLIT FOLDING BELT PULLEYS

Sauer offers turnkey installation service that includes removal of the existing pulleys and installation the new pulleys without having to pull the shaft.
